Realize lightweighting but high-strength production

The foaming injection molding (MuCell) technique is not only used for lightweighting, but more and more companies are using it to achieve high-strength, cycle reduction, or energy-saving. [Click here](#) to see how MuCell could help you to get win-win....

既減重又增強的雙贏工藝

節能減碳趨勢帶動汽車輕量化成為重要課題，然而微發泡成型(Mucell)製程技術不只能用於汽車部件減重，還可用以實現高強度、降周期、省能耗等，[點擊這裡](#)看看Mucell如何幫您達成雙贏。

How to choose the correct IMM?

It's sometimes not easy to pick the ONE from so many types of injection molding machines. There are [7 clues to find a way](#).

射出機挑選攻略 不藏私!

我想生產的製品，該用怎樣的射出機才恰當呢？找對生財器具很重要，選型起手式[土要訣就在這裡](#)。
